The House of Representatives, a Knights of Labor organization, numbering over 200 members, has won a partial victory for an increase of wages, and has appointed a conference committee to meet representatives of the Brotherhood of Tailors and the United Brotherhood of Tailors.

For the coming work season, friction has occurred in some shops, and it is expected that the situation will be further complicated by the fact that the union has a list of names of workers who are not members of the union.

BULLISH FEELING KEEPS UP.

But the Stock Market Had a Slight Reaction This Noon.

The temper of speculation continues bullish. Many stocks this morning are at the highest prices of the week, which means also that the best figures of the year were attained.

New pools are constantly forming, and their purchases, together with the absorption of securities for foreign account, prevents the occasional bear raids from having any particular influence on values.

The short interest exaggerated by the recent crop scare was very large, and the work of covering these contracts is bound to be by no means easy.

Another break in wheat this morning stimulated the bullish feeling on the share list, and the leading operators have a firm grip on the market. Many of the low priced shares are for sale to the front, among them Colorado Coal and Iron Development, Minneapolis & St. Louis, Colorado Fuel & Iron and Hooking Coal.

YACHT TRILBY OVERTURNED.

Then the Canal Was Alive with Workmen Who Couldn't Swim.

BUFFALO, N. Y., May 25.—A steam yacht, bearing the name of Trilby, was capsized in the Hamburg Canal this morning, and two or three men are presumed to be drowned. The accident occurred at the Michigan street bridge, which is being repaired.

The yacht served as a ferry to carry workmen across the canal, and shortly before 7 o'clock this morning there was an unusual crowd of Polish laborers who sought conveyance to their work. They clambered aboard like a flock of sheep.

The Trilby took three loads safely across, but when she returned for the fourth the Poles made a rush for her, and all jumping simultaneously on one side, caused her to lurch, capsize and go to the bottom.

For several minutes the canal was alive with terrified human beings, few of whom could swim, but all of whom were struggling and clutching at each other or anything within reach.

Many climbed out on the shore, but it is impossible that all escaped, and the bodies of three or four are missing.

The yacht is capable of carrying thirty or more passengers. The accident was due entirely to the fault of the men boarding her.
